- 1. Rate Information.** The Dividend Rate and Annual Percentage Yield (APY) on your accounts are set forth above. The APY is a percentage rate that reflects the total amount of dividends to be paid on the Dividend Rate and the frequency of compounding for an annual period. For dividend bearing accounts, the Dividend Rate and APY may change monthly as determined by the Asset Liability Committee (ALCO).
- 2. Nature of Dividends.** Dividends are paid from current income and available earnings after required transfers to reserves at the end of a dividend period. The Dividend Rate and APY disclosed are the anticipated rate and yield the Credit Union will pay for the applicable dividend period.
- 3. Compounding and Crediting.** Dividends will be compounded and credited monthly for all accounts. . The Dividend Period for all dividend-bearing accounts begins on the first calendar day of the month and ends on the last calendar day of the month.
- 4. Accrual of Dividends.** Dividends will begin to accrue on cash and noncash (e.g. checks) deposits on the business day you make the deposit to your account. If you close your account prior to dividend crediting, you will not be paid accrued dividends.
- 5. Balance Information.** New money requirement is defined as funds not currently on deposit with O BEE CU unless deposited within the prior 10 business days. The minimum opening balance required for each account is set forth above. The average minimum balance required to earn dividends and obtain the APY on accounts and to avoid interest checking monthly fees is set forth above. Dividends are calculated by the average daily balance method which applies a daily periodic rate to the average daily balance in the account for the period. The average daily balance is determined by adding the principle in the account for each day of the period and dividing that sum by the number of days in the period. If the average daily balance falls below the established minimum, dividends will not be paid at month end and fees may apply on Interest Checking.
- 6. Business Certificate Information.** After your account is opened, you may not make additional deposits to your Certificate. You may withdraw accrued dividends at any time after the dividends are paid. Withdrawal of dividends will reduce earnings.
  - a. Maturity.** Your Certificate account will mature within the term shown above or the maturity date shown on your Notice of Certificate Maturity.

- b. **Withdrawing Interest.** You may choose to withdraw any paid or credited dividends without penalty during your Certificates term or at maturity. After the maturity date and grace period, dividends will become principal of the renewed Certificate.
- c. **Early Withdrawal Penalty.** For Certificate accounts, after your account is opened, you may make withdrawals subject to early withdrawal penalties. The penalty for early withdrawal from your Certificate account is based on the amount you withdraw and the term of your account:
  - i. Terms of 365 days or less, the penalty is equal to 90 days dividends.
  - ii. Terms of 366 days or more, the penalty is equal to 180 days dividends.
- d. **How the Penalty Works:** The penalty is calculated as a forfeiture of part or all of the dividends that have been or would be earned and applies regardless of whether the dividends have been earned. In other words, if the Certificate has not yet earned enough dividends, or if the dividends have already been paid, the penalty will be deducted from the principal. The penalty will be calculated on the amount withdrawn.
- e. **Renewal Policy.** Certificate accounts will automatically renew for the same term at the dividend rate in effect on the maturity date. Any special Certificate account offering will renew into a standard Certificate account with a similar term as the maturing special Certificate account. We will send a renewal notice to you 30 days prior to maturity. In the event you do not want your Certificate account to renew automatically, you must contact us prior to the maturity date to arrange the transfer of funds to another account upon maturity. You will have a grace period of seven (7) calendar days after the maturity date to withdraw the funds in the Certificate account without being charged an early withdrawal penalty.
